IMPACT
by Honeywell

Plumbing Valves

Operating within varying demands of function, pressure, physical conditions, and operational requirements; plumbing valves need to perform with totally reliable consistency, day after day. The IMPACT by Honeywell range of plumbing valves delivers unwavering performance despite continuous use, as well as leak-proof designs that result in water savings, across sizes and specifications.

Forged Brass Ball Valve

BV1-IMP-PN25

Salient Features

- Screwed Female Ends
- Full-Bore, Two-Piece Design
- Quarter Turn, Lever Operated
- Chrome Plated Ball
- No Visible Leakage

SPECIFICATION

Size	15 mm – 100 mm
Nominal Pressure	PN25
Application	Suitable for Water and Air
Test Pressure	Shell Test (Hydrostatic): 3.75 MPa (37.5 Bar); Seat Test (Air): 0.6 MPa (6 Bar)
Maximum Working Temp	0°C to 95°C

Application Area

Commercial Buildings

High Rise Buildings

Fire & Safety

General Pipeline Service
